Dare to be different

We show courage by taking managed risks. We are willing to try new approaches and to do things differently. We always look outside to see what others do better than we do, and embrace new ideas and change in order to improve what we do, and how we do it. Fear of criticism will not hold us back from doing the right thing.

Do things with respect and trust

Page 4 of 7

Give people fair and realistic timeframes and deliver accordingly. We follow up with people and close the loop. We are honest in our communications and provide consistent messages. Communications are professional – treating people as equals and with impartiality and empathy – we can disagree but still maintain a professional relationship. Members of the community experience positive interactions with us. We choose to build strong relationships on a foundation of mutual trust and respect.

Be fair to everyone

Consistency in decisions, service, advice and information. Everyone has the same opportunity to be heard, and to take advantage of the opportunities available to him or her.

Peace and serenity matters

These are the defining, unique, extremely special characteristics of our district (e.g. tranquil lakes, open spaces and dark skies) – and they need to be protected. Future development and decisions will be sensitive to this value.

Leave things better for the future

We will carefully consider our actions, and do things with best practice in mind, challenging the short-term focus with long-term decisions. We will look ahead to understand the big picture and future needs of our district and future generations.
